98-170 and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Telephones, including wireless units, are very important utilities that we all need and are not luxuries. It is already excessively taxed, including on the local and state level. With many people already being unemployed or with salaries that are already frozen, we can not afford to pay an additional unfair tax or increase in fees (Universal) for our essential utility to live by. Respectfully, Victor Lee Chung

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
